The Board of Trustees of the Toronto General Hospital herewith place on record an expression of their deep sympathy with the Honourable Sir William Mulock on the death of his son Mr. Cawthra Mulock. Mr. Mulock was a genesrous benefactor of this Hospital and his name will always be held in grateful remembrance on account of the interest he took in the erection of the Outpatients' Department which will become increasingly important in the Service of the sick poor in this community.

January 11th, 1919

The Board of Trustees of the Toronto General Hospital herewith place upon record an expression of their sense of the deep loss that the Hospitals of the City of Toronto and in particular the Hospital for Sick Children have sustained through the death of the late Mr. John Ross Robertson. The Hospital for Sick Children stands as a worthy memorial of the kind-heartedness and organising ability of Mr. Robertson to whose inspiration and generosity its erection was largely due. He ever took the deepest personal interest in the welfare of the children of the Hospital, and was always in the lead to improve the equipment and the comfort of the sufferers. The efforts that he exerted in behalf of the institution in which he was chiefly interested, however, were of value not merely to those who were connected with it and who received treatment in its wards, but served to create in the City of Toronto a higher conception of the duty which it has to all hospitals. The Trustees of the Toronto General Hospital desire to express to the relatives of the late Mr. Robertson and to the Trustees of the Sick Children's Hospital their deep sympathy with them at this time.
